

BORRISON IVY

BRAKE! BABY

You say that I'm the one - and only true love
Like fate it's meant to be - just 'you and me'

Brake! baby - put your love on hold
I'm drowning over here
You're getting out of control
Brake! baby - put your love on hold
Your love is taking a toll

You say you'll do anything - anything at all
To be right by my side - and catch me if I fall

Back off and give me space
Back off and give me room
Back off and give me time
Back off - my life's all mine!

I feel like I'm going under
You're coming on too strong
That's way too much and way too fast
You've got to give me space and make it last
